

2006 SSAA Action Match Nationals

MATCH DIRECTORS BULLETIN 5/9/2006

For those of you shooting production class can you please supply (email) me with the details of your handgun that is to be used for "production class" in the 2006 SSAA Nationals?

Can you also indicate what external modifications (if any) have been done to your handgun?

The purpose of this request is to alleviate any dramas for you on the day when the gun is being inspected by the match referee before the match. Please refer to Match Bulletin #2 dated 26/8/2006 at http://www.actionmatch.com.au/pdf/directors_bulletin_20060826.pdf concerning the criteria for using handguns in this non NRA sanctioned match.

Gary Fleetwood
